

STAINED GLASS COURSES

begin **September 13, 2010**

Sign up now to ensure the time slot of your choice!

Stained glass courses are once again being offered at **Whittemore-Durgin Glass Company**.

You can learn the rudiments of the craft of stained glass in a relatively short time by enrolling in one of our stained glass courses. We have invested 30 years of effort in bringing this craft to the point where it is no longer a mystery, but instead a fascinating, entertaining subject in which anyone, regardless of manual dexterity, artistic gifts, or level of confidence, can be reasonably expected to master the basic skills. Our classroom is fully equipped with all the latest tools necessary for the

practice of the craft.

Because of the teaching experience of our instructors, and because of the congenial and informal atmosphere of our classrooms which makes learning stained glass so much fun, most students sign up for further courses.

What you will learn in our Beginner Course

We have designed this course for those who have never worked with stained glass, or for those who have a very elementary knowledge. We will teach you how to cut glass, how to work with copper foil, and the proper way to solder. We will introduce you to all of the tools of the

trade, as well as most of the materials, including the various types of glass. When you have completed this course you will have several finished projects to show for it, as well as a mastery of the basic skills used in the craft of stained glass.

What you will learn in our Advanced Courses

You will want to take this course if you have completed our Beginner Course, or have previously mastered basic cutting and soldering techniques, and want to start on some more complicated projects.

We will teach you how to do three-dimensional projects, such as boxes,

terrariums, lamps and the like. The instructor will be able to give more personalized attention at this level. Before beginning this course, you should have a project in mind so that you can start right in at the first session.

Classroom equipment

You will find that the classroom is completely outfitted. We will furnish you with a soldering iron, glass pliers and glass cutters for your

own personal use while in class. The classroom is also equipped with specialty tools, such as a glass grinder, glass score machine, glass cutting band saw and other devices which you may wish to use from time to time. All these tools are for your use during class time, but remain our property. If you wish to buy your own tools, they are available at a discount from the regular price during the eight-week period that the classes are in session.

LOCATION

Classes are held on Mondays at our building, which is located on Route 139 in Rockland. The street address is 825 Market Street. Specific directions for finding this building can be found on our website.

REGISTRATION FEES

All fees cover the entire 8 weeks of two-hour classes.

BEGINNERS: The registration fee of \$100.00 includes the use of the tools, as well as consumable materials used in the projects, such as glass, lead, foil, solder, flux, patterns and printed instruction material. (The cost to purchase these items would be in excess of \$100.00.)

ADVANCED: The registration of \$90.00 includes the use of some tools, but students will be required to purchase their own supplies due to the variety of projects undertaken.

STUDENT DISCOUNTS! All students receive a **10 percent discount on all supplies** during the eight weeks that the classes are in session. In addition, we offer a different discount every week exclusively for students.

SCHEDULE

Lessons are 2 hours long, once each week for 8 weeks. Classes for this session will be held on **Mondays** beginning September 13, 2010.

| | |
|----------|--------------------------|
| Beginner | 10:00 A.M. to 12:00 P.M. |
| Advanced | 12:30 P.M. to 2:30 P.M. |
| Beginner | 6:00 P.M. to 8:00 P.M. |
| Advanced | 8:00 P.M. to 10:00 P.M. |

Class dates:

September 13, 20, 27

October 4, 18, 25 (no class Oct. 11 in observance of Columbus Day)

Nov 1, 8

Class cancellations

In the event of class cancellation due to weather or other unforeseen circumstances, you will receive an e-mail by 8:00 a.m. on the day of class (if not earlier), and the class cancellations will be posted on our website, www.whittemoredurgin.com. You may also call our offices at (781) 871-1790 to learn of any class cancellations. Cancelled classes will be rescheduled.

HOW TO REGISTER

Fill out the registration form, and mail it to us or bring it in. The full tuition fee must accompany the registration form. (You may also sign up online.) Sign up early to be sure of having your first choice of time. **Cancellations:** If you find you must cancel before the course commences, we will refund the tuition fee in full if we are notified prior to the first session.
